THREATEN TIE-UP IN STREET WORK

Overcome When Appropriation is Passed by Council

CITY TO BORROW $30,000

Salary of Supt. of Gas Increased—Steps Taken Regarding Increase in Phone Rates.

Common Council last night hung fire on an appropriation of $4,000 to meet a deficit for cleaning streets and removing ashes and for a time it looked as though this work would have to be temporarily suspended. However, the council finally got together and adopted the resolution carrying the foregoing appropriation and the work will be carried forward without interruption.

The only vote cast in the negative was that of Councilman Sullivan. When the measure first came up Councilman McCaffrey did not vote and afterward voting in favor of the measure.

Debate On Appropriation

When the resolution appropriating the $4,000 to make up the deficit for moving ashes and cleaning the streets came up Councilman McCaffrey asked what had been done about his resolution to include the moving also of rubbish.

President Burke explained that there is a law which provides what shall and shall not be removed and that until this is repealed nothing could be done.

Councilman Ruben explained that the street committee and finance committee had gone thoroughly into the matter but were unable to do anything for lack of sufficient funds, adding that the committee was doing all within its power with the funds at hand. Mr. Burke added it is now costing the city about $18,000 annually for this work.

A vote was then taken and Councilman McCaffrey did not vote and Councilman Sullivan voted against the measure. The chair then changed its vote to no and for the time being it looked as if Alexandria would continue to have dirty streets and ashes not moved. However, a reconsideration was subsequently taken on the measure and Councilman McCaffrey, as stated above, voted in the affirmative, Councilman Desmond in the meantime had stated that if council couldn't see its way clear to do the work he moved that the street force be disbanded until the money was forthcoming. This was seconded by Councilman Ruben. In changing his vote Councilman McCaffrey said he would vote for the measure if the men were not paid.

Mayor Fisher returned without his approval or disapproval the resolution passed at the last meeting appropriating $7,500 for the purchase of a lot for the erection of a building for colored school children and council again acted on the measure, concurring in the action of the aldermen in adopting it.

Resolution authorizing the finance committee to borrow $30,000 and issue notes for same to meet the purchase price of lot for school building and also for the purchase of motor engine was referred to the finance committee. Resolution to continue paying increased salary to firemen and policemen after June 1, was referred to the finance committee.

Resolution apropriating $688.09 to finish paying for police patrol and motorcycle was referred to finance and Police committees.

Re-Elect Superintendent of Gas

Resolution fixing the salary of the Superintendent of gas at $2,000 a year effective May 1, 1919, was adopted. The salary formerly was $1,200 a year.

Afterward a joint session was held and F. W. Latham was re-elected superintendent of gas for a period of two years.

Petition of the Mutual Ice Company to erect ice sales stations on Alfred street between Princess and Queen streets and on Alfred street between Wolfe and Wilkes streets was granted.

Resolution appropriating $990 to standardize the fire hydrants of the city was referred to the joint committee on fire and finance. A letter from K. W. Ogden, fire chief, on this matter was read. It was explained there are five different couplings now in use here.

Resolution of Councilman Desmond to increase the salary of the motor truck driver from $85 to $100 a month and the single teams of fire department from $82 to $90 a month and double teams from $85 to $90 a month was referred to the finance and fire committees.

Action on Telephone Rates

Resolution that the corporation attorney take the necessary steps to regulate the proposed increase in telephone rates, it being stipulated that the charter of the C and P Telephone Company provides that before a change of rates becomes effective the company must notify council of intention to apply to the state corporation commission. This measure was first adopted by the aldermen and afterward by the common council.

Resolution fixing the salary of the city auditor at $1,500 a year effective June 1 and that compensation for dog licenses be discontinued and hereafter be given to the city treasurer was referred to the finance committee.

Resolution appropriating $200 to purchase horse, cart, and wagon for city alms house was adopted.

Calvert Ellis was granted permission to erect frame building at 410 North Patrick street and C. R. Yates to build addition to 322 South Fairfax street.

BOOTLEGGERS THRIVE

Not Content With Fat Profit, They Swindle Purchasers

Not content with obtaining four prices for whisky, bootleggers have devised another method of realizing additional profit on the alcoholic juice dispensed in Richmond. . . .

Here is the latest:

Pedestrian walking along the street.

"Pist" (voice from the rear), "desireth thou a quart for thirteen simoleons?"

"You betchal Lead me to it."

The quart is obtained after the purchaser has walked through three feet of mud to an apparently abandoned shanty, half a mile from the spot where he was hailed, and parted with his thirteen.

The pedestrian begins his homeward journey.

"Beg pardon, cap, but suppose you give me that quart and save yourself further trouble!' is demanded in a gruff voice as the man with his quart passes along a dark square.

"Guess I won't."

"But look," and here the party flashes a bright shining badge. "I am a detective and will save you the inconvenience of facing the grand jury if you surrender the bottle."

Having surrendered the liquor, the man hurries home, only ot learn later that the police are searching for a man who is alleged to have stolen the badge of a detective agency.

In the meantime the camouflaged detective has returnd the whisky to the bootlegger.

APPLY DRY LAW

Supreme Court Judges Decide Liquor Is Banned by Reed Provision

The Supreme Court yesterday virtually decided that the Reed prohibition amendment applies to the state of Tennessee. The court refused to review the cases of E. A. Laughter and W. N. Fisher, convicted of taking liquor into the State in violation of a State law. The two men claimed that state law merely prohibits the use of intoxicants within certain areas, as for example within four miles of a schoolhouse, but does not apply generally to the State and that therefore the Reed bone dry amendment does not apply.

R. WALTON MOORE NOMINATED FOR CONGRESS FROM 8TH DISTRICT

Carries Every County by Overwhelming Majority Over H. Earlton Hanes.

LIGHT VOTE POLLED THROUGHOUT DISTRICT

Vote in Alexandria Was Moore 428, Hanes 62, Moore Winner in District by 8 to 1.

R. Walton Moore of Fairfax county was nominated for Congress from the eighth Congressional district in the democratic primary held yesterday over H. Earlton Hanes of Fairfax county, by an overwhelming majority. Mr. Moore swept every county in the district and also Alexandria city. With incomplete returns from many of the counties it is estimated that Moore defeated Haynes by about eight to one and in some places it will exceed that figure. However, a light vote was cast in practically every county in the district. Practically all realized that Mr. Moore would secure the nomination without trouble and consequently there was no enthusiasm over the primary.

Less than one third of the voting strength of this city was cast in the primary yesterday and the ratio of Moore's vote over that of Hanes was about 8 to 1 here.

A total of 500 votes were cast in the city, and about ten thrown out in the different wards on account of being improperly marked.

Vote by wards in the city follows: First, Moore, 115; Hanes, 9; Second Moore, 191; Hanes, 28; Third, Moore 108; Hanes, 9; Fourth, Moore, 108; Haynes, 16. Total, Moore, 428; Hanes, 62.

In Alexandria county the total vote was Moore, 316 and Hanes, 54.

In Fairfax county, the county in which both candidates live, with only one small precinct to be heard from, the vote was Moore, 1035 and Hanes, 145.

In Loudoun county the vote was five to one in favor of Moore. Purcellville, Loudoun county, gave Moore 70 and Hanes 3.

In Orange county Mr. Moore carried by 250.

Louisa county Mr. Moore won by from 8 to 1 and it may go 10 to 1 for Moore.

Moore carries Fauquier county by approximately 800.

Substantial majorities are also reported from Prince William and Culpeper counties. Up to noon today no returns had been received from either King George or Stafford counties, but according to reports Moore carries both counties.

The eighth district democratic Congressional committee will meet at 3 o'clock Friday afternoon at the office of Gardner L. Boothe for the purpose of canvassing the vote cast in the primary yesterday.

A special election will be held May 27 for the purpose of electing a successor to Representatives Charles C. Carlin who recently resigned from Congress. A democratic nomination in the eighth district is regarded as equivalent to an election.

CONDITIONS IN KOREA

Misrule Results in Riots Says Japanese Envoy

Tokyo, April 23.—The Korean riots against Japanese authority are attributed to Japanese misrule there in a report made yesterday by Representative Moriya, who returned from Korea, where he conducted an investigation.

Moriya condemned the administration. He declared the riots were due to discrimination against the natives of Korea and excessive repression of freedom of speech. He declared that coercive taxation methods for roads were burdening the poor.

ITALY LEAVES THE "BIG FOUR"

Demands Adriatic Claim Be Adjusted or No Further Conference

WILSON UNYIELDING

Attitude of Italians Deemed Defiant as Bolshevism Threatens—Japan's Demands.

Paris, April 23.—"Take it or leave it," continues to be the attitude of the Italian peace delegates. To all intents and purposes they are out of the Peace Conference and will not come back unless their "solution" of the Adriatic question is accepted in full.

They have not left Paris, but refuse to attend the sessions of the "Big Four" until their associates—the delegates of America, Britain and France—send word to them that they surrender unconditionally to the Italian terms.

Of such a surrender there seemed not the slightest chance last night, after a day of arduous efforts by the "big three" to find a way out of the dilemma.

President Wilson will not budge from his stand that Fiume must be internationalized as for the secret pact of London, his attitude is that America has nothing to do with it.

France and Britain do not know which way to turn; they incline to the Wilsonian stand but they are signatories to the treaty which Italy claims is not only secret, but sacred as well.

Strong report has it that Orlando and Sonnio are willing to stay here till the end of the week, but not a day longer. The Italians' attitude is not only defiant, but threatening.

The latest club used by the delegation's semi-official spokesmen is Bolshevism.

Economic conditions in Italy are known to be grave. It is frankly admitted that if Orlando cannot tell the Rome Parliament on May 6 that all of Italy's claims are granted, his government will cave in.

There is ground for fear that in that event it will drag the crown with it, and either a Republican or a Soviet regime will rise to power.

Japanese and Chinese representatives presented their rival territorial claims at this afternoon's session of the "big four."

Japan's demands for ratification of her occupation of Kiaochau and the Shantung Peninsula presents a situation paralleling the position of Italy.

MEETING FRIDAY NIGHT

(Submitted by Citizens' Committee)

The meeting to be held in the Auditorium of the Chamber of Commerce Friday night will be for the purpose of discussing details of the Council Manager plan of government and what benefits such a system would be to the City of Alexandria

If the citizens and tax-payers of Alexandria are interested in such matters as to what their future tax rates shall be, and what kind of service they will have, how their money is to be spent, and what returns they are going to have from money spent, The Citizens Committee suggests that citizens who pay the bills study the present system of government and see how it operates, and also study and see if they do not believe vast sums of money can be saved by intelligent business principles applied to city affairs.

When it comes to a final analysis the committee believes that each man who pays money into the city treasury to receive benefits in return therefor, will formally decide this matter in his own mind on business principles rather than on sentiment to preserve an old institution.

The committee called attention to the fact that in advocating this plan it develops that the plan does not call for an evolution in city affairs, but the gradual adjustment and coordination of all departments, in which each man, at present, serving the city government will not be displaced unless he is incompetent or inefficient. The good men rendering the city proper service under the present cumbersome plan of government will be enabled to render far more efficient and better service under the new plan of government.

Judging what the council-manager plan would accomplish in Alexandria by what it has accomplished in other places the citizens would receive better service with lower taxation. As the new system is simple and responsive to the wishes of the people, and operates on simple business principles the future taxation under the new system would be based on the intelligent demands of the majority of the citizens rather than following the present plan, and increasing the tax rates because the city is behind this year, and does not know how much money they are going to spend next year.

WILL SERVE MEALS IN BED TO SERVANT

Montclair, N. J., April 23.—The following advertisement, which is regarded by some as a satire, but is stated by the person who inserted it as an earnest attempt to obtain consideration from those who are in the market to hire out in household service, was published in the Montclair Times:

WANTED—Lady to assist in housework; must be stylish; fingers well manicured; willing to have her breakfast served in bed; no washing, no cooking, no cleaning, sweeping or dusting, flowers and bonbons provided; salary or stipend, $200 a month; limousine will call.

The servant problem has reached an acute stage in Montclair, and householders are offering extremely high wages.

DISPOSITION OF FIUME

The long drawn-out controversy as to whether Italy shall be given Fiume emphasizes again the danger that lies in secret treaties between nations. Whatever the outcome of the controversy may be it has raged so long that it has added very materially to the pains and losses which the world suffers because of a deferred peace.

The controlling cause of this unhappy situation is not the intrinsic importance of Fiume. That little town is utterly negligible in comparison with the world interests which are being injured. Fiume—it will surprise most of those who may read this to know is not much larger than the present Alexandria. A few years ago it had a population of not quite 39,000, and less than one-half of its inhabitants were Italians.

This is the city over the disposition of which the Peace Conference has been in a tangle for weeks.

As the Baltimore Sun says "obviously it is not the value of the town and its trade that makes Italy so determined to gain possession. Nor does the fact that Fiume is a seaport with good harbors account for Italy's stand, for she already has excellent ports and the understanding is that she is to get Trieste, 70 miles northwest of Fiume, and, like the latter, formerly within the boundaries of Austria-Hungary. The truth of the metter is that Italy wants Fiume because she is undergoing a sort of political revolution, and her government, anxious to maintain its power, desires to flaunt booty before the eyes of the people as evidence of achievement.

"In support of its claim the Italian delegation at the Peace Conference brings forward the secret treaty of London, which guaranteed Fiume to Italy in the event of victory. England and France were parties to this treaty. But the fact is that when the Allied nations, Italy included, agreed to a peace settlement upon the basis of President Wilson's Fourteen Points they automatically repealed any provisions of any secret treaties inconsistent with those Fourteen Points."

HARD TO PLEASE

When President Wilson made known the covenant of the League of Nations a noisy protest went up from Republican Senators and newspapers that it was seriously defective and endangered American interests because there was no specific safeguard in it of the Monroe Doctrine, that palladium of our national liberties. Fully appreciating the fact that it was within the constitutional rights of the Senate to reject the peace treaty, if so inclined, the President made an earnest plea to the peace conference to except the Monroe Doctrine by name from the operations of the League covenant, and this was done at his request. Now that this stumbling block to ratification has been removed some Republicans want to put it back again. They are horrified, or pretend to be, at the mention of the Doctrine as an "international agreement" or a "regional understanding for the maintenance of peace" and want all reference to it stricken from the covenant. Here, for instance, is The New York Tribune, which, under the heading "Burying the Monroe Doctrine," argues in this curious fashion:

"The purely nationalistic character of the Doctrine must be preserved in order to safeguard it. Instead of throwing it into the international melting pot, the United States ought to stipulate its exclusion from the scope of any international partnership into which the American people enter. The United States would surrender its traditional attitude toward American questions if it should ratify the covenant as it now stands."

The Philadelphia Record asks "Can you beat it? The covenant is fatally defective without specific mention of the Monroe Doctrine, and then becomes even worse when it is mentioned. The Republicans must be sorely pressed for arguments when they resort to such absurdities."

CHURCH OF ST. SOPHIA

Warning that the Turks had threatened to destroy the Church of St. Sophia, in Constantinople, if any movement was undertaken to restore that church to the Christians, has been received byt Government officials of Great Britain.

Admiral Calthrop, British commander in Constantinople, has been instructed to take measures to protect the building.

There is a definite movement looking to the restoration of the great Cathedral church of ancient Constantinople to the use of the Christian religion. Erected at first in 360 A. D., and rebuilt in 537 as a Christian cathedral, St. Sophia was appropriated by the Turks as a Moslem house of worship and is now the principal mosque of Stamboul.

Justice requires that the Christians of that city, who form a large majority of its inhabitants, should have their priceless building (St. Sophia) restored to them. It has no special sacredness for Moslems. Its value in their eyes is merely political. The great church is now in a serious condition and must inevitably collapse if it is not placed in capable hands. The glorious mosaics, a precious heritage among the artistic treasures of the world, should be uncovered from the defacement which is necessarily imposed so long as the building, constructed and decorated for one faith, is alienated and devoted to another."

BULGARIAN CRUELTY

The American Red Cross reports that during the Bulgarian occupation of parts of Greek Macedonia a hundred thousand Greeks—men, women and children—were deported. Jammed into freight cars at the point of the bayonet, a hundred of them in a car with capacity for 40, carried out in slow trains, they are now arriving in droves at the American Red Cross relief stations, after having been without food of any kind for days. Women walk into the stations with dead babies in their arms. Young girls are driven insane.' Out of one group several thousand people who had been deported, 1475, half naked and almost starved, came back to the ruins of their homes. The others had died of starvation, disease or maltreatment. Though the armistice stipulated that the refugees were to be returned free of cost, the Bulgarians exact full railroad fare whenever they can find one who had any money left.

Negro Who Had Killed Three Policemen Escapes From Jail

Herbert L. Copeland, a negro prisoner, charged with the murder of three police officers escaped from the District of Columbia jail yesterday.

Copeland made his escape through a window leading to a corridor down which he fled to another window and jumped out to freedom. Two bars to the first window were found sawed through, and one in the second.

It is declared that the sawing of the second window was done from the outside. Further strength is lent the theory of outside assistance by the fact that a barbed-wire fence surrounding the jail grounds was found cut at one point.

Copeland, on May 21, 1918, shot to death Lieut. Dunnigan, and Private Conrad, of the District police force, and Deputy Sheriff McParlan, of Prince Georges county, while they were attempting to serve a warrant on him. Copeland was wounded four times by the officers.

Cleaning Bath Tub

Well, here I am in her home. I work from morning till night and am glad to do it. I am a necessity to any woman who wants a perfectly clean sanitary home to live in.

7 A. M. Everyone in this neighborhood has remarked how healthy and clean this family looks. Each member sprinkles me in the bath every morning. I refresh them and brighten the beginning of their day.

8 A. M. Breakfast over, I assisted the Maid in washing the dishes. I cut the grease off the dishes, glassware and china. All kitchen utensils I sterilized and made bright and clean.

8:30 A. M. The refrigerator. I cleaned it thoroughly. Sprinkled in warm water I go into every nook and corner. I know it must be hygienically clean so that the food will be wholesome. I make it so.

9 A. M. In the laundry. Ah!—here I work with my old co-worker—soap. The Laundress knows I save half the rubbing and brighten the colors, and make the clothes clean and sweet. Also Laundress is clever. She knows I can take the place of a light starch, so this morning in doing lingerie waists a little of myself was used instead of a light starch. When I got through with them they were confections.

10 A. M. Made the King of the household happy at ten. I washed the Baby. In Baby's bath I made him cool, clean, and comfortable. Then I cleaned the milk bottles and rubber nipples. I made everything around King Baby sanitary.

11 A. M. I renewed the gas range. After she dissolved me in water and washed and wiped the old range dry with a clean cotton cloth, the nickel trimmings glistened, the pipes looked new and the zinc plate looked clean again.

2 P. M. One tablespoonful of myself in a quart of water and the Maid and I cleaned the tarnished silver.

3 P. M. There were some stains rimming the bath tub. You should have seen me take them off and without harming the polished surface a particle. I left it clean as a new pin. While we were in the bathroom, I helped disinfect and clean hair brushes, combs and other toilet articles, and at

5 P. M. I went after that garbage can. I deodorized it, cleaned it, killed all the fly eggs deposited there and rendered this necessary receptacle safe to have around.

Who am I? I am the world's greatest cleanser and the most harmless antiseptic. I purify everything with which I come in contact. I save time, labor, and expense. I am a hygienic necessity in every home. Yours,

CUTS GIRL'S HAIR

Intrusion Into Pretty Italian Girl's Bedroom Believed Result of Old Love Superstition

Ambler, Pa., April 23.—Entering the second floor bedroom of pretty Sarah Paladine, 19 years old, the belle of the Italian colony of Ambler, a masked man, who wore white gloves, forced the girl to get out of bed and to cut off part of her hair. He then cut off the remainder of her hair, searched all the drawers of a bureau in the bedroom, but took nothing, and escaped when he heard a noise, climbing through the window he had entered.

Members of the household say it is an Italian belief that if a lover can secure a portion of the hair of the girl he loves, and can scratch her until the blood comes, he will have her in his power.

Although in a state of nervous collapse, the Paladine girl is not injured. It is believed the man who entered the room and cut the girl's hair is in love with her, although she says she did not know him. However, she says he is an Italian and gave the State police a description of him, barring his features, which were masked.

Mrs. A. Waring, 304 N. Patrick St., says: "I suffered awfully from backache and inflammation of the bladder. I used to be in such misery during these attacks I had to have injections of morphine to relieve the pain. The pains in the top and back of my head nearly drove me frantic. I often got so dizzy I could hardly keep from falling. Nothing did me any good until I got Doan's Kidney Pills at E. S. Leadbeater & Son's Drug Store. "This is the Way I Have Helped"

"I couldn't get out and *work* for my country as you girls did. There were duties that kept me at home.

"But, just as the boys over there *saved* the Nation, I saved *for* it.

"Like them, I've finished the job. I've bought of the Victory Liberty Loan—as much as I did in the other!"

YEGGS CRACK SAFE

Cincinnati, Ohio, April 23.—Burglars succeeded in obtaining several thousands of dollars when they entered Burkhardt Brothers Building on East Fourth street here sometime after midnight Sunday. They blew open the safe after using more than $4000 worth of men's suits to wrap around it in order to deaden the fall of the door.

Banish Pain

THERE is no use talking—no one can work or play when they are not feeling well and strong. Life, without health and strength, is a mere painful, pleasureless existence.

One of the most important conditions of good health is to keep the kidneys normal and active. When weak or deranged, they do not filter out of the blood the impurities that should be eliminated from the system. When these impurities remain, the blood stream is poisoned and pain and suffering result.

Foley Kidney Pills

aid and assist Nature. They strengthen and invigorate weak or diseased kidneys and help them keep the blood stream pure and clean, banishing backache, rheumatic pains, stiff or swollen joints, sore muscles, and other symptoms of kidney trouble.

W. R. Fox, 195 W. Washington St., Noblesville, Ind., writes: "After suffering many months with kidney trouble, and after having tried other remedies for the same, I purchased a bottle of Foley Kidney Pills and took them. They not only did me more good than any other kidney remedies I ever have used, but they positively set my kidneys right. Other members of my family have used them with similar results."
